

Mounting Bracket

TAC-B Series

General Description

The special bracket for outdoor installation of TAC-B 4G or TAC-B 3D-WP sensor on the pipe or wall.

Mounting Base Specifications

The primary mounting base is designed for secure installation directly onto walls or poles.

- **Application:** Wall or pole mounting.
- **Base Width:** 75 mm.
- **Structural Design:** Features a 31 mm wide central U-shaped channel, ensuring stable positioning and anti-rotation lock when mounted on cylindrical surfaces.
